An Invitation to Exhibit

The 2011 Joint Conference of the IEEE International Frequency Control Symposium and European Frequency and Time Forum is a leading conference in the area of Frequency Control. The conference also includes an exhibition area that will allow all of the conference participants and exhibitors the opportunity to explore the science and technology of Frequency Control.

The details of the conference are provided at:
<http://ifcs-efrf2011.org/>

We expect that over 20 different vendors covering a wide range of current cutting-edge technology, will be exhibiting this year. The exhibit area will also be the location of the session coffee breaks and the Exhibitors' Reception.

With an expected attendance of over 400 scientists and technologists who are leaders in their field, plus 20 international vendors, the conference provides a unique opportunity for close interaction between exhibitors and attendees with the exhibition forming a significant part of the overall conference experience.

Below is the exhibit prospectus that will outline the details of reserving an exhibit booth for the conference. To avoid disappointment, reserve your exhibit space early as space is limited. Please contact the undersigned for further information.

If an exhibit or exhibitor is rejected for violation of these rules and regulations or for any other stated reason, no return of exhibit space shall be made.
